Skins

The "Skin" of which we speak is that skin found holding such favorites as french fries, mashed potatoes, hash browns, etc. Well... at Spike's we bake our potatoes, slice them in half, and then with a spoon and firm twist of the wrist (a process affectionately known as "the scoop"), allow most of those fries, mashed potatoes and hash browns to escape. What is left, we feel, is the best tasting and most healthy part of the potato. We deep fry it to a golden crisp, season it and in most cases, load it full of all sorts of yummy delicious morsels. Ladies and gentlemen... THE SKIN!!
