Skins

The "Skin" of which we speak is that which holds such favorites as french fries, mashed potatoes, hash browns, etc. Well, at Spike's we bake our potatoes, slice them in half, and then, with a spoon and a firm twist of the wrist [a process affectionately known as "The Scoop"], allow most of those french fries, mashed potatoes and hash browns to escape. What is left, we feel, is the best tasting and healthiest part of the potato. We deep fry it to a golden crisp, season it and—in most cases—load it full of all sorts of yummy and delicious morsels. Ladies and Gentlemen...The SKIN!
